

## JENIPHER WANJIKU

Jenipher is ten years old and in third grade. She was born on 23/12/2000.

She lives with her both parents who are HIV/AIDS positive; however she is HIV negative.

Jenipher has two sisters. They live in a one roomed wooden house without electricity and use charcoal jiko and paraffin (kerosene) stove for cooking.

She is a disciplined and kind girl and her favorite activities are playing foot ball, hide and seek and leading storybook. She takes three meals per day and shares a bed with her two sisters.

They buy borehole water and use a pit latrine which is shared among the people within the same compound. The compound is untidy and there is no security. She scored 175 marks out of 180 marks in her last exam she was position 2 out of 40 her best subject is mathematics. Her dream is to become a teacher when she grows up.
