

## PETER MADARAKA

Peter is a very talkative and very friendly boy. He is 5 years old and in class one (1<sup>st</sup> grade). He lives with his aunt and uncle who are both HIV positive but Peter is HIV negative. They live in a one roomed house that is much squeezed and does not have electricity. They live eight of them in that one roomed house. Peter's guardians (the Uncle and Aunt) don't work; they get jobs once in a while.

They use charcoal jiko or kerosene stove for cooking food. He only eats once a day because the family cannot afford three meals in a day. The environment they live

in is not good; it is very noisy, crowded and not safe. They don't have access to water, they have to walk for a long distance to get it and they have to buy it.

Peter shares a bed with his uncle and brothers. He wants to become a pilot when he grows up. His favorite activity is playing football. He is a very active and co-operative boy. He is also very bright in school in his last examination he scored 400 marks out of 500 marks.
