

Sally Irindi

Sally is 8 years old and in second grade. She was born on 11/11/2001.

She lives with her mother who is HIV positive. The parents are separated after her husband knew his wife's status. However, Sally is HIV negative.

She lives in a one roomed house and uses a pit latrine which is within the compound. She also uses borehole (well) water and the environment where she comes from is not very safe but the compound is not very noisy.

She takes two meals per day and shares the bed with her sister. Her favorite activities are skipping rope, Kati, and hide and seek. Her dream is to become a doctor when she grows up. She scored 444 marks out of 500 marks on her most recent exams.
