

VIVIAN ATIENO

Vivian is nine years old, born on 12/12/2000. She attends Ngando primary school and is in 3rd grade. She lives in a three roomed iron sheet house with her family in a crowded environment.

The house has electricity. She lives with her mother, father and four brothers. Her parents are both HIV positive but she is HIV negative.

The family purchases water from nearby water outlets.

Her mother sells chips (French fries) along the road, while her father works as a carpenter to earn income. They use kerosene to prepare food. Vivian takes three meals a day and sleeps on a bed.

Vivian's mother describes her as disciplined and quiet girl. Vivian is a very social girl and outgoes with lots of friends. Her hobbies include playing football and reading story books. Vivian hopes to become a doctor in the future and help the less fortunate. She scored 418/500 marks in her final exam. Her favorite subject is Kiswahili.

Vivian says she will be very happy for sponsorship because it is only through education that she will be in a position to pursue her goals.
